

Nominee: Integra

Nomination title: **Bespoke Power Solutions**

High quality bespoke power distribution units built, designed and tested in the UK.

Why nominee should win

Integra are a leading UK manufacturer of quality PDU's (Power Distribution Units) utilized by leading entities in both the UK and global markets.

Integra PDU's are of high quality, set in black powder coated metalwork, fully tested with a high specification in-house test solution. Balanced with competitive pricing and excellence in service and project delivery lead times, Integra can be relied upon as a true partner.

Our in-house qualified design team can supply detailed CAD images and line drawings, followed by prototypes and testing certificates with a declaration of conformity where appropriate. All components are of the highest quality and fulfil our global partner's quality assurances. Integra products are currently exported to the US, EU, AU and UEA.

Integra is a growing brand name and our reputation and company growth has been built without the need for advertising or marketing, instead our growth is of a direct result of quality, pricing and consistently exceeding the expectations of our clients.
